Gov. Reeder's Arrival.

Gov. Reeder passed up this (Saturday) morning on the Polar Star and landed at Fort Leavenworth which will be his residence for the present. He was greeted on his arrival at the Fort with the national sanot yet learned who accompanies him.

Delay.

Our publication this week is unavoidably delayed until this (Saturday) evening. Workmen have been employed the past week in lathing our office, and our work has been carried on amid the din of their been the common resort of the resident and transient population of Leavenworth. Our type and material has been handled during the last week by people enough to make a respectable town. We have had the misfortune to offend some persons, by suggesting the inconvenience to which their handling our material subjects us. To their indignant interrogatory whether this is not a free country, we have not one word to say. We hope that no body will consider this in the light of a hint.

A large number of carpenters could find employment in Leavenworth during this fall and the coming winter. Wages are high and their labor in demand. After the sale of lots the sound of the hammer handle it.

A number of good stone masons would also find profitable employment. Should the weather continue favorable, building will be carried on here all winter.

The River is falling, and navigation begins to be difficult. The Missouri after all that has been said against it, is the tnost navigable of all the western waters, save the Mississippi below the mouth of the Ohio. The Illinois and Ohio are now fordable. The Missouri affords comparitively good navigation for nine months in the vear.

The New Lucy in her last trip up the Missouri suffered severely from the storm of Sunday night. She had made the landing below Jefferson City before the interests of our Territory, and especially season the sudden changes of the climate, and wind struck her. Her guards were much upon the prospects of its river towns, injured, one of them being blown away, her otherwise. She had on board a large number of passengers, some of whom were taken off by the Kate Swinney. The Lucy repaired her injuries so far as to enable her to come through to this place very little behind her time.

Messrs. Murphy & Schuces have their Steam Saw Mill at the lower end of town in fine running order and are prepared to turn out almost any amount of lumber that our people may require. Their enterprise will facilitate very much the building of our town and obviate to a great extent the scarcity of lumber and the difficulty of hauling from the other side of the river. Gentlemen who contemplate putting up houses this fall should call on them.

Seat of Government.

An impression has prevailed that the clause of the Kansas bill making Fort Leavenworth the temporary seat of government had been repealed by a subsequent act of Congress. Such a bill passed the Senate but failed in the lower house, consequently that point will be the Territorial capitol for the present. The want of suitable accommodations may compel the Governor to hold the first session of the Legislature at some other point.

A CONDUCTOR'S JOKE .- A great improvement has been made upon the Camden and Amboy Railroad line, by retticoating all around the cars, which prevents the dust from arising and annoying the passengers. Y u may now travel in these cars in your best Sunday-go-to-meeting clothes. A Frenchman travelling on the other line, by way of Brunswick, which is Uncle

Sam's line, asked the Conductor: "What for you no' ave ze petticoat on zis line ?" "Can't sir," unswered the Conductor, "this is a mail line."

INDIANA ON THE NEBRASKA BILL .- The New York Journal of Commerce says, "a gentleman from Indiana, whose means of mformation on the matter in question is unsurpassed, gave it as his opinion the other day, in our hearing, that if the approaching election in that State was to turn exclusively on the Nebraska law, there would bea majority in favor of that law of at least

Return of Maj. Winship.

Major Oscar F. Winship Assistant Adutant General, (and Ex-Officio Inspector General,) has just completed the very interesting tour which he undertook three months since, for the purpose of inspecting several of our Western Military Post.

In the execution of this duty he travelled up the Kansas to Fort Riley thence by the new road opened during the last season to the encampment of the 6th Infantry at the crossing of the Arkansas. From this place he pursued his journey up the valley of that lute, and a public reception will be given river to Bents Fort and along the base of lute, and a public reception will be given river to Bents Fort and along the base of plaint, nervous affections, general debility, neuthe mountains to Fort St. Vrain and Fort ralgia or tic-doulouseu, cancers, goitre, white Laramie, returning by way of Fort Kear-

Aside from the usual objects of military inspection; we have reason to know that Major W. has observed attentively the geographical features of the country he traversed, and though having mainly in view hammers. In addition to this our office has the selection of commanding positions for military Posts, has incidentally in his Report embodied a great deal of information which would at the present time possess a profound interest for our readers. We cannot, however, expect Major W. to furnish extracts from his Report antecedent to its transmission to Washington, but hope he will favor us hereafter with such copious memoranda respecting the topography. agricultural, mineral and pastoral resources of our great Piedmont-its water coursesnatural routes and mountain passes—as will gratify the very general and earnest desire of our people for a reliable and intelligible description of this comparitively unknown region.

Major Winship in conversation with a friend mentioned the interesting fact that will be heard in every quarter of Leaven- during the past season large droves of catworth, provided the men can be obtained to the with attendant wagons &c. were taken by emigrants and traders from Texas and Arkansas over the route he pursued from Bent's Fort to Fort St. Vrain, whence they struck due west through Bridger's or Stansbury's Pass direct to the Salt Lake. Major Winship encountered at St. Vrain's an intelligent gentleman who had just traversed this route and spoke of it in strong terms as favorable to wagons, and possessing every requisite for the subsistance of stock. The number of cattle taken over that road the past summer was about 25,-000.

As Stanslury's pass lies due west of us and affords a route to the Salt Lake, o bundred and twenty-four miles shorter that through the South Pass, our re will appreciate its bearing upon the fi

The ingredients employed in this preparation are known to the medical faculty and to almost every individual to be highly effiacious in the removal of diseases, producing anc action upon the blood, glands, lungs, liver kidneys, digestive and urinary organs, enabling them to throw off diseases and to perform the functions that nature designed. Dr. Easterly's Iodine and Sarsaparilla searches out the very oots of the disease, destroys the germ by purifying the blood, changing morbid secretion, and by driving out all impure and diseased fluids of the body, and by thus removing the cause, the cure is rendered certain and permanent. It is the best remedy ever invented for the cure of mercurial and syphillitite or veneral diseases. It has cured thousands upon thousands after all other remedies had failed. It has cured, and will cure, the most deperate cases.

DR. CARTER'S COUGH BALSAM.

This valuable remedy is purely vegetable in its ing edients, and perfectly harmless in all its qualities. It is ve y soo hing and healing to the tungs, and is everywhere acknowledged by D. uggists, Physicians, and all who have used it to be the most effectual curative known.

CONSUMPTION. No disease incident to our climate is so universal, and at the same time so fatal, as Pulmonary Consumption. This awful malady sweeps over he land as a destroying Angel, laying low the strongest and fairest of our race. Millions

of the young and old are annually hurried to the tomb by this diead national disease.

Consumptive Reader !—Beware of mere pailiative medicines. The object of nearly all the medicines now offered for diseases of the lungs, is to relieve and not to cure. Such is not the case with Dr. Caster's Cough Balsam. In colds and coughs, which are the first symptoms of consumption, it is the most pleasant and efficacions remedy that can possibly be used. In confirmed Consumption it has been used with perfect and triumphant success, when the most eminent physicians had given up all hope as vain. So confident is the proprietor of its power to cure Tuberculous Consumption, that he selicits a trial

in the worst of cases. SPITTING OF BLOOD.

This frightful symptom of consumption is speedily checked and prevented by the use of Dr. Carter's Cough Balsam, which heals the affected membrane, removes the theiplent tubercles, and restores those vital organs, the lungs

to a sound and healthy condition. DR. CARTER'S COUGH BALSAM is a great expectorant. It dissolves the morbid and diseased matter in the air passages, changes it from a thick glutinous substance to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient. There is no better medicine in the world if its expectorant qualities alone be considered.

This distressing symptom of consumption arises from inflammation of the lungs or membrane called the Pleura, or from brenchial affections of the air passages. In either caseit is a very dangerous indication of disease. It prevents full and free breathing, and wears away the natural strength of the system. The cause of this symptom should be emoved at once, and nothing can possibly effect that object so speed-ily and happily as Dr. Carter's Cough Balsam, which is atways safe and salutary in its effects on the constitution

In cases of consumption the Liver is always more or less affected, and also, the spleen, pleura and small intestines. The effect of Dr. Carter's Cough Balsam in diseases of the liver, especially if it be of an ulcerous nature, is direct and powerful. Simple disease of the liver unattended by consumption is speedily cured by its use.

WINTER COUGH.

WINTER cough,

The harsh dry winter cough which afflicts eld
people and invalids in a low state of health, can
be effectually cared by the use of Dr. Carta:'s Cough Balsam. It warms, moistens and stimulates the whole breathing apparalus, purifies and animates the blood, improves the secretive power of the liver, spleen and other large glands, and the digestive organs, and imparts new life to the wan and emeciated system.

by one hitis, difficulty of b. easising, harsh cough, a slimy expectoration, with all other symptoms caused by an affection of the air tuber leading from the threat to the lungs, are directly and specifically affected and cured by the use of Dr. Caster's Cough Baisam. This is a very painful, wearing and injurious complaint, and always has a powerful tendency to inflame and soften the hungs, and thereby induce the worst forms of pulmonary disease. Be warned in time, ye afflicted, and employ this valuable remedy.

edy. Free expectoration is the most Imperiant ebject to be attained in all attempts to cure diseases of the chest and lungs. The cough which is so distressing is simply the result of a desire to

es of the chest and lungs. The cough which is so distressing is simply the result of a desire to expectorate; and as long as foul matter exists in the air passages, it will continue to initate the membrane and provoke a cough! Coughing is an attempt to the owelf this mattery and expectoration gives great relief, inability to expectorate in the latter stages of consumption is the cause of death.
